

## Welcome

Welcome to Caffery's Dance and Gymnastics School. We are honored you have chosen Caffery's as your dance and gymnastic School. We have provided dance and gymnastic instruction to the Middlesex County area for over 30 years. Our school is known as a family operated school, where your child is recognized as a very important person. In our unique teaching program all students are given the same attention. We do not just focus on the competitive teams like many schools; we give the same attention to all classes from recreational to competitive. At Caffery's you will find a staff of loving and caring instructors, which are interested in each child's progress. You will always find our staff to be pleasant, and patient. We will make every effort to make your child's experience a special one.

## Observation

Open observation is not allowed on a weekly basis, due to the amount of distraction this causes in the classroom. Ms. Maureen will allow parents to view the class on occasion through out the year. Gymnastic parents will be allowed in more often, as long as the student's remain focused on their skills. Siblings are not allowed during observation in the gym, for safety reasons.
